Learning Through Play

At Norto5 KIDZ, we understand that play is not just a pastime; it is a fundamental aspect of a child's development. We believe that children learn best when they are engaged, curious, and having fun.

This is why we have designed our curriculum to revolve around the concept of "learning through play."

1. Cognitive Development

Our carefully crafted play spaces encourage children to explore and discover. Whether it's building with blocks, exploring loose parts and natural resources investigating the wonders of science, or engaging in imaginative storytelling, these activities stimulate cognitive growth. Play presents children with challenges and puzzles that require them to think critically and find solutions.

This fosters a sense of independence and adaptability. Group play helps children learn to cooperate, negotiate, and share. They develop social and emotional skills.

2. Social and Emotional Development

Through play, children learn how to manage conflicts, express their feelings, and find peaceful resolutions. These skills are invaluable for future relationships.

3. Language and Literacy

Play often involves storytelling, whether it's acting out a favourite book, creating their own tales, or engaging in dramatic play. This enhances language skills, vocabulary, and comprehension.

Activities like drawing, scribbling, and tracing in sand or play dough are playful ways to develop fine motor skills, which are essential for later writing.

4. Physical Development

We are driven by the positive use of our outdoor spaces and believe that it is a central role in the nursery. Many ideas are generated from a variety of sources, but mostly from using the natural materials in the environment.

5.Creativity and Imagination

We encourage open-ended play, where children can use their imaginations to turn everyday materials into whatever they desire. This sparks creativity and innovation. Through art, music, and creative expression, children develop an appreciation for aesthetics and the arts while expressing their unique selves.

At Norto5 KIDZ, we believe that play is the foundation of lifelong learning. Our dedicated team create an environment where play is not only encouraged but also purposefully integrated into our curriculum.

 We ensure that every moment spent at our nursery is a valuable opportunity for your child to grow, discover, and thrive.
